# MINING, BUSINESS AND STOCKS

# **NEW ENGLAND** MAKING MONEY

Splendid Results Being Obtained From Operation of This Bingham Property.

MILL IS TO BE ENLARGED.

Developments Made Below the Tunnel Level of a Most Satisfactory Character.

Henry M. Adkinson, manager of the properties of the New England Gold & Copper company of Bingham, is in the city today on a business trip and expects to return to camp again tomorrow morning. Mr. Adkinson took hold of the New

England at a time when the stockholders had become so accustomed to putting up assessments from time to time to keep things going that they began to despair of ever being able to

time to keep things going that they began to despair of ever being able to get desirable results. But Mr. Adkinson took hold in earnest and after making an examination of the ground and doing some preliminary work, he reached the conclusion that he could make the property pay. In due time he put up a small mill and the returns from the sale of concentrate considerably more than paid the operating expenses of the mine, including what was necessary to meet the costs of exploratory work in new ground.

Developments made during the past year have been of a most gratifying character, and on the 100 level below the tunnel something like 1,000 feet of workings have been run and in which is exposed at least two year's supply of stoping ore for the mill. This plant. Mr. Adkinson says, is running 20 hours per day and the product obtained therefrom amounts to about 12 cars of concentrate monthly. At the present time no attenion is being paid to the development or ore extraction from that portion of the mine above the tunnel. Below it, ore has been exposed in every face, and altogether the property presents a most satisfactory condition.

Work w!!! be commenced tomorrow on an enlargement of the mill and the installation of a system of regrinding of the tailings, through which means Mr. Adkinson expects to make a closer saving of values. However, the recovery at the present time averages about 87 per cent. The New England is one of the best equipped little mines in Bingham and none of them is better conducted. The record made by Mr. Adkinson since he has been in charge of the property entitles him to a place among the most successful mining engineers and mine managers in the state.

ON MINING EXCHANGE.

## ON MINING EXCHANGE.

Demand for Tintic Shares Continues Closing Quotations and Sales.

Closing Quotations and Sales.

The brokers operating on the floor of the Salt Lake Stock and Mining Exchange did not get warmed up until they reached the open board call, when the scene in the pit was one of animation. The demand for Tintic stocks continued, with Colorado Mining as the favorite. This stock sold up to \$2.25 and closed on a sale marked up at \$2.20. Lower Mammoth participated to the extent of \$09 shares; the entire block going at \$2.07½. Ajax, May Day, Uncle Sam, Yankee Con. Black Jack and Beck Tunnel were among the active ones. Mountain Løke was bought at \$9 and \$8 cents. There were a few sales of Park City stocks—Silver King, Daly and Daly stocks—Silver King, Daly and Daly West, The closing quotations and sales

NEWS FROM SEARCHLIGHT. Leasers at Work in Eldorado Canyon-Many Properties Active.

Special Correspondence. Searchlight, Nev., Jan. 18.—Leasing is in vogue in El Dorado canyon. 20 miles north of Searchlight. Many rich strikes have been made recently in this district, and as the rich ores are found close to the surface, several leases have been taken. John Anderson has given two leases on his Jumper mine, situated

close to the surface, several leases have been taken. John Anderson has given two leases on his Jumper mine, situated at Nob hill, and active work has commenced. On the Jumper lease, four feet of high grade silver ore has been struck.

Work on the Searchlight Treasurer is progressing in a very systematic manner, two shifts drifting on the vein at the 175-foot level. The streak of high grade ore recently encountered on the streak of high grade ore recently encountered or continues for hundreds of feet along the at the 175-foot level. The streak of high grade ore recently encountered on the hanging wall of the vein still con-tinues in the shaft, and the ore body

tinues in the shaft, and the ore body gives every indication of permanency. Charles Vanina has resumed development work on the Eddy mine, which has been in litigation for the past three years. This property, situated in the heart of the proven mineral belt adjoining the Duplex mine, was jumped, and after the assessment work had been done and recorded. Despite these evidences of compiliance with the law the dences of compliance with the law usurpers carried the case to the United States circuit court and under the de-cision handed down by Judge Gilbert the property is given to its original

Systematic developing on the Golcomda mine has at last revealed the ore
shoot in place at the 200-foot level.

Gen. Mgr. E. H. Pearl of the Searchlight Free Gold Mining company is
preparing for the thorough development of his company's properties east
of the Philadelphia Searchlight company's estate. The company owns the
the States group, consisting of the
Maine, New Jersey, Iowa and Georgie
lode mining claims.

The new strikes on the "flat" to the
west of Searchlight continue to be the
sensation of the camp, as they are
proving up better every round of shots
fired. On the Adolph claim of the

#### IMPORTANT NEVADA LAW. Foreign Corporations Required to Pub-

lish Statement of Business.

There is a law in force in Nevada relative to foreign mining corporations of which a great many interested in Nevada mining camps know very little.

very little.

In order that the laws of the state may be properly complled with it is necessary to publish in a daily paper for the period of one week, a statement of the business done by the various mining companies during the year 1906. For the benefit of our patrons who are interested we here-with publish the statute in its en-

Section 1—All foreign corporations doing business in the state of Nevada shall during the month of May of this year and in each succeeding year in the month of January, publish a statement of their last year's business in some daily newspaper in the state of Nevada for a period of one week

state of Nevada for a period of one week.

Sec. 2—The secretary of the company publishing the statement shall file a copy with the several assessors of the state of Nevada.

Sec. 3—Any corporation coming within the provisions of this act who shall neglect or refuse to file a statement as required by section 1 of this act, shall be liable to a penalty of \$100 for each month that the published statement remains unfiled with the several assessors of the state.

Sec. 4—Any district attorney in the state is competent to sue to recover the nenalty, or the attorney-general. The first county securing through its attorney shall secure the penalty, and if no suit is brought for the penalty by any district attorney the state shall have the right to recover through its attorney-general.

Sec. 5—All acts and parts of acts in conflict with this act are horeby repealed. Approved March 28, 1801.

# DOES NOT DETER

Development Work is Being Pushed Ahead in the Rosebud, Nevada, District.

SALT LAKERS BUSY THERE.

Camp Will Soon Have Wire Communi cation With Outside World-Route Of Western Pacific,

Special Correspondence.

Rosebud, Nev., Jan. 20 .- The "Rabbit Hole Country," so-called, is now a thing of the past. The district has been or ganized and christened Rosebud. The district is now only about three months old, and notwithstanding the execrable weather and the rigors of a seemingly extraordinary winter, the camp is forging to the front with phenominal vigor. With those established at adjacent springs and within a radius of one and a half miles, Rosebud contains over 150 tents, and the procession is just commencing. Notwithstanding the storm and cold, new people are daily arriving

upon the scene.

Changes are overtaking the town each day. The very topography of the place is undergoing a transformation. A few weeks ago people were warned against coming into the country without bringing tent and supplies, as accommodations of the very crudest character were simply impossible to be had. As a matter of course such statements had the effect of deterring many bonanza chasers from making their apbonanza chasers from making their appearance upon the scene; and such lack of accommodations seally one exist until within the past few days, but at this writing Rosebud has both lodging houses and restaurants. Nothing iux-urious in either line but the soldier of fortune can now come into camp with the assurance that he can get a

with the assurance that he can get a place to sleep and plenty to eat.

And now the mines. The Original Pioneer's original strike, the Golden Anchor, has been incorporated under the name of Rosebud-Neyada. Up to date it is owned and officered exclusively by Salt Lake people. David Kennedy is president, George N. Lawrence, secretary and treasurer, and W. J. Lawrence, managing director. A diversit of gold bearing ledges traverse versit of gold bearing ledges traverse its territory from northeast to south-

The star attraction of the camp, however, is the Brown Palace. This is the great big silver ledge which shows above the surface, and from which high

above the surface, and from which high silver values have been obtained.

Next in order is possibly the Dreamland. The ledge on this property has been stripped for over 120 feet, and none of the ledge, proper, will run less than 200 ounces. This property has been "taken into camp" by Tonopah, Goldfield and Salt Lake people.

The Powhatten, evidently, has the widest ledge known is the camp. It is said to be 50 feet between walls, and all or nearly all is of a shipping grade, with very rich schutes and pipes in places. This, too, it now owned by Tonopah, Goldfield and Salt Lake people and is being systematically developend.

In this connection it is only fair to and that the three learness and proper to the condition of the condition of the condition of the connection it is only fair to and that the three learness are represented.

continues for hundreds of feet along the vein's strike.

The Rabbit Foot group has been sold

to L. L. Mushett and associates, of Tonopah, and active work upon the same is now fairly under way. The Powhatten Fractions have been

The Pownatten Fractions have been bonded to Tonopah people represented by Mr. C. H. Mace.

The Some Beauty group lays between the Brown Palace, Dreamland and Rosebud-Nevada properties and is the most promising property in the district yet remaining in the hands of the original owners. And there are others,

Mill City, about 35 miles to the east, is the present point of disembarkation.

Mill City, about so thies to the east, is the present point of disembarkation from the Southern Pacific, but Humboldt, some eight miles nearer, is evidently destined to be the passenger and freighting point until the Western Pacific, the surveyed line of which is only five miles to the north, is built and operated.

five miles to the north, is built and operated.

The construction of a telegraph-telephone line from Humboldt, is now under way. The poles have been planted and wires strung more than half the distance and the whole line will be in operation within the next 15 days. Winnemucca people have recently secured a lease of the railroad company's hotel at Humboldt, and in connection with establishing a first-class hostelry will also inaugurate an auto line be-

with establishing a first-class hostelry will also inaugurate an auto line between that place and Rosebud. This would seemingly make Humboldt the gateway to the Rosebud district.

Within the past week a very promising strike was made about seven miles to the northeast, and since then a veritable stampede has been in progress to the new diggings and everything in sight is said to have been monumented. table stampede has been in progress to the new diggings and everything in sight is said to have been monumented. The general character of the rock brought down is virtually the same as that of the Rosebud district, proper; silver values seem to predominate. In the country midway between the scene of this new strike and Rosebud, some very promising properties are being developed by H. T. Abstein, John Church and J. E. Truwin.

Rosebud and the contiguous territory is indeed great.

is indeed great.

#### SMELTER SMOKE CASES. Defendants Have Completed Appeal To a Higher Court.

St. Louis, Jan. 24.—An appeal was filed in the United States court of appeals here yesterday by five Utah smelting companies from the decision of the United States circuit court for the district of Utah, which permanently restrained them from continuing to roast or smelt sulphide ores carrying over ten per cent of sulphing in any over ten per cent of sulphur in any form or combination at their present plants. The decision was rendered Nov. 12 last, effective 30 days from that

Nov. 12 last, effective 30 days from that date. The smelting companies contend the damage to their business and to the mining interests of the state will be much greater than to the complainants if the injunction remains effective.

The complainants are James Godfrey and 408 owners of property aggregating 9,000 acres of land near Salt Lake City, addining the plants of the American globo acres of land near Sait Lake City, adjoining the plants of the American Smelting & Refining company, the Utah Consolidated Mining company, the United States Smelting company, the Bingham Consolidated Mining & Smelting company and the Bingham Copper & Gold Mining company.

#### PARK CITY SHIPMENTS.

The ore shipments from Park City mines last week amounted to 2.659,160 pounds, the contributing mines and

### NEW COMPANY FORMED.

The American Consolidated Coppe company of this city has filed its arti company of this city has filed its arti-cles of incorporation with the county clerk. The capital stock of the com-pany is \$500,000, divided into shares of the par value of \$1 each. J. C. Barn-ard is president; H. C. Edwards, vice president; F. O. Frick, secretary and treasurer. The company owns a large group of claims in Big Cottonwood dis-trict.

#### CONCENTRATES.

The ore and bullion settlements reported late yesterday by MrCornick & Company were: Crude ore and concentrate, \$18,000; base bullion, \$75,000; gold bullion, \$18,200.

William Hatfield was in the city yes-terday on mining business. He brought with him some very nice specimens of ore from the Mountain Lake property showing high values in copper.

Ben T. Lloyd, the well known mining man, buried an infant son at noon to-day. The child was born Sunday even-ing, and died shortly before 9 o'clock last night.

Samuel Newhouse departed this afternoon for Cobalt, Ont. to make an examination of the Nipissing mine, of which he is now the executive head. He will be joined at Cobalt by M. M. Sea bass, per pound 15 Johnson, his chief engineer and J. H. Robeson of Colorado, who was recently appropriate reperal manager of the Smale per pound 20 Smale per pound 10 appointed general manager of the Nipissing Mining company.

West Quincy operations continue in good shape, though the management of this as of numerous other "coming" properties desire to say but little until there is something really startling any good for the public to know. The work is progressing, however, and conditions are encouraging enough to assure the continuation of prospecting.—Park City Record.

## LOCAL MARKETS.

The low thermometer prevented transfers this morning of shipments of fruit from the cars to some of the commission houses, the consignee fearing partial freezing, but with the moderation of the weather, the consignments will be brought up town. The car load receipts include lemons, fine navel oranges, barranas, Utah spuds, etc., with smaller shipments of lettuce from Moapa, and the usual run of Pacific coast vegetables. The demand for Utah asparagus is increasing; but the Moapa growers are fast catching up in point of excellence as they learn the secret of renewing the beds. The increased precipitation in southern Utah and Neva-

da, due to the presence of the Salton sea, is causing an extension in market gardening with a view to consumption in this part of the state, which promises to bring the south country more and more in competition with the Pacific coast raisers in this market. The prices obtaining in today's markets are as follows:

# MARKET MADE SOME ADVANCE

Buying Was Moderate and Evenly Divided Among Speculative Favorites.

### MACKAY STOCKS ON 'CHANGE.

Prices Yielded on Dull Trading-Were Some Recoveries-Close Was Irregular.

New York, Jan. 24.-The market made neadway upward from the outset, although the buying was very moderate in mount and quite evenly distributed be tween a half dozen forer st speculative favorites. After a number of stocks had risen above yesterday's closing the demand became less urgent. The Mackay companies' stocks, which were admitted to dealings on the exchange, were in ac tive demand, the common selling up from 73 to 75. Northern Pacific and Pacific Mail rose 11/2 and Reading, Southern Rah way preferred, Amalgamated Copper and Locomotive I. Prices yielded generally on dull trading, Canadian Pacific falling 1½. The reaction elsewhere reached but a point only in Northern Pacific. The market at noon was dull.

Bonds were steady. Quite a demand sprung up for the Hill stocks, Reading and the copper stocks, but their strength did not extend far. Most of the active stocks recovered to

Most of the active stocks recovered to the best prices of the morning, after which the general demand d.ed out. Anaconda jumped 6, Northern Pacific 23, and Great Northern preferred and Pacific Mail 2. Signs of heaviness appeared about the middle of the afternoon with the cessation of small buying.

The market closed irregular. Amalgamated Copper advanced 1½. A harder tone in the late call money market was a factor in the reaction.

# PRODUCE.

CHICAGO.

CHICAGO.

Chicago, Jan. 24.—Wheat was in excellent demand at the opening and the market was strong. Many traders were disposed to take profits within the first hour and prices became somewhat easier. The northwestern situation remained unchanged, receipts still being small. The weather predictions were for more snow and cold weather. Cables were slightly higher, giving additional strength to the market. May opened '46% to 46% higher at 79% to 79% and sold at 79% to form market was active and the demand fair. Prices became easier soon after the opening. May corn opened a shade higher to 46% lower at 46% to 46%.

The cots market was quiet and steady, and without feature. May opened unchanged to a shade higher at 28% to 38% to 38% and sold at 384,638%.

Provisions opened dull and steady. May pork opened 2½ lower at 18.5%. Lard was down 2½ at 9.37% 9.40, and ribs were a shade lower at 19.6%.

Realizing sales caused a recession in prices later in the session and May declined to 78%, closing weak % lower at 78% Corn—Prices weakened owing to profit-

clined to 78%, closing weak % lower at 78½ @78%.

Corn-Prices weakened owing to profit-taking. May selling off to 45%@45%, closing weak ½@%, down at 45%.
